Terre d Argile Medium Ivory Vase

The Terre d'Argile Medium Ivory Vase has a vintage appeal achieved in terracotta. Not only does the shape feel as if it was born in another time, the mix of beige and gold finishes provide the ivory vase with patina. The added dimension to the surface is the fact that the gold has luminosity to it, a surprising move that makes this vase special. We also offer the Ivory version of the Terre d'Argile in a large size, and we have large and medium vases in raw terracotta and black.
