Bramford Black Cabinet

The lovely motif on the door fronts of the Bramford Black Cabinet were inspired by a luxurious handbag our director of furniture Aimee Kurzner spotted. Made of mahogany with a black caviar finish, the pattern on the cabinet doors is made of interwoven black and ivory leather, and the ferrules on the legs are made of brass in a brushed brass finish. With its removable wine rack, it makes an elegant bar cabinet. It has push-to-open doors, a storage drawer with soft close drawer glides, adjustable shelving, and cord management holes. We also offer this hue of the Bramford as a nightstand and accent chair, and in a nightstand, cabinet and chair in black
