Veronica Sectional

The Veronica series features a striking contemporary shelter design highlighted by a captivating play on angles. The sloped arms convey a welcoming appearance by gently tapering down from back to front, while tapering up from the base to the arm rest. The chamfered upholstered base is particularly noteworthy due to the profile being matched on every side. This is a silhouette whose beauty can be appreciated from any angle, making it an ideal choice for floating in a room setting. This sectional configuration includes a floating ottoman.
