Twin Palms Cable Beach Bar Cart

Perhaps the most innovative design in the collection, the mobile bar cart features a white Cordova stone top which is hand polished and sealed. The lower portion, which is on antique brass casters, pivots 360 degrees around the end post offering unlimited positioning for serving guests. The pivoting section features a tempered glass top, stationary wooden shelf below for glassware and a bottom shelf with gallery surround for beverage storage. When closed, the opposing diagonal design on the end panels creates a distinctive herringbone pattern.
