

Cromwell

Oyster Bay Brookville Chair

Sometimes interest can waver but this chair goes beyond and peaks with both the design and comfort. It appears to be a boxy club chair, yet the comfort must be experienced. The tufted inside arm and back, along the with arm height is comfortable for many body types while the scaling assures they can be tucked away in Smaller spaces or paired for conversations. The Millstone upholstery finish is standard, but you may choose any fabric or finish when making your own. Shown here in 5920-71 fabric
